

The new Good Community Vessel

The proposal builds on the success of the existing Good Hotel, currently supporting around 60 permanent jobs—nearly 80% of which are held by Newham residents. In addition, our Training Programme has welcomed an average of 60 trainees each year.

Our model is simple: the more people stay with us, the more we can reinvest. And the more we reinvest, the more good we can do for Newham community.

With the proposed Vessel we aim to deliver much-needed visitor accommodation while helping to ease pressure on local housing. Beyond hospitality, the project will create **80 new jobs** and **offer 100 new training opportunities** each year for Newham residents.
